SALESROOM, No. 83 MAIN ST.,

A LPACASI ALPACAS!

OFFICE: No. 15 Quincy Street.

TUPSDAY, NOVEMBER 29, 1870.

The Boston papers of all parties are after General Butler with a sharp stick currence of such affections, while a conforming recent warlike speech in that city. for his recent warlike speech in that city.

THE Cincinnati Red Stocking Base Ball Club has determined that ball-playing is a recreation, and is not unworthy as such to rank with the professions, and have therefore deckled to become, next spring, a strictly amateur club.

Tuz latest sensation has it that Trochu is "wandering in his mind." Unless he soon gives signs of trooperating with Paralines, and wanders at the need of an army beyond the walls of Paris, the report may gain credence, anovi salaT

Tun article on the Flick amendment, copied yesterday and credited to "The Cable Press," was taken from the Cabell Press, a Democratic paper published at Cabell C. H. That improved method of spelling the word Cabell is an invention of the compositor who set up the credit.

THE London Spectator suggests, as a way out of the present French troubles, that King LEGPOLD, of Belgium, be elect ed King of France, and Belgium united to France. To settle with Germany, Alsace could be given, and a pecuniary compensation equal to the amount of the Prus-

THE repeal of the last three Amendments to the Constitution and the reconstruction acts, thus in effect putting the country back where the war left it, with the questions of the rebellion open as provocation of another war, has been made the issue in the Congressional elections in Georgia by the Democratic cau-

THE Pone has issued against poo VICTOR EMANUEL the greater anathema. It is the duty of all good Catholics, therefore, to refuse to tender to the King of Italy any bodily nutriment, or to render to him corporeal service. The ban of the Church rests ever upon those who shall

This is the language of a Philadelphia pabut it wont go down with the radical Democratic papers of this region. They ternaturally heated, is chilled, thus induchold that every man is to be a tribunal for himself, to sit in judgment and decide

The ternaturally heated, is chilled, thus inducing internal congestion of blood.

It is not always that the result of this himself, to sit in judgment and decide whether a law is valid or void. Every man his own judge, is the rule here; and it is even more convenient than "every man his own lawyer."

THE New York Herald has what purports to be the relation of a correspondent correspondent's presence that the destinies of Europe and its peace in the future are still in the hands of "this man"agent did not utter the words quoted, but tims of consumption. it is unlikely.

About Diamonds.

The discoveries of diamond deposits in Southern Africa are making a great sensation in all countries of the civilized world. We know little of the extent of these deposits, and read the glowing accounts with reservation and incredulity. and many will starve, and others who went for diamonds will find new attructions in soil and trade and other mineral and wine and general business as in gold

when he comes to the conclusion that there is any better way of making money than by earning it. If men mean to work there is work enough to be done at kome. A hundred thousand young men could swarm into a State like Missouri or Georgia and do more towards making their own fortunes in simple, carnest, hon-est development of the agricultural and mineral resources than in all the diamond districts of the world.

districts of the world,
"Gold," says Emerson, "may be found
any where, if we will only dig for it." And
there are diamonds all over these United
States of America if our young men will only look for them.

An English paper tells the following with reference to the new open postal cards: "The Germans have their postal cards as well as we, and abuse the new institution in about the same manner. At Dresden a gentleman received a card some weeks ago, conveying the following message: "I lost my purse yesterday at the sage: "I lost my purse yearcray at the
Euberbaths, with three Napoleons in it
I dropped it close to the watter-mark,
where it must lie still. As you are a good
diver, pray go a bathing with me this
ever ing at 6." The gentleman kept the
appointment, and was surprised to see two
or three postmen go into the baths just
before him. Having undressed he went
out to the platform, and there his astonishment increased: for, in suite of the ment increased; for, in spite of the inusual hour, there were nu nbers of men there, some of whom it needed not the sight of the post-office uniforms in the un-dressing-rooms to proclaim post-office clerks, for they were well-known faces from the receiving counters. They all kept near the water-mark, a place very little frequented, and took uncommon long dives. The writer of the card was sitting at a little distance, evidently enjoying the sight. As the disappointed elected returned from their acquastic search they found an inscription in chalk on the door: 'Strict secrecy observed with regard to all postal communications.' It was only then that they perceived that they had been made the butt of a joke." clerks, for they were well-known faces

Our House-Warming System.

From the Philadelphia Record.

At this season of the year, when so many persons suffer from cold and sore throats, the necessity for avoiding the causes of such allments cannot be too strongly urged. A cough may seem to be but a triffing affair in itself, but frequentially repeated attacks will lead to more seri-tions, in the confusion of which a clear, round and pleasant voice was heard above.

A proper observance the clamor, offering a resolution of thanks the clamor, offering a resolution of thanks. ly repeated attacks will lead to more some consequences. A proper observance of the laws of health will prevent the confidence of such affections, while a consequence manner with which, as tempo-

sits for two or three hours in a crowded at Pine Bliff. He made the canvas in the area or church, breathing an amosphere tained by the exhalations from the lungs of hundreds of other people; his system is exhausted, his skin is excited to majority. The district herefore went unwonted action, and when he leaves the Democratic by 6,000. A fair record, cerbuilding and goes out in the cold air, his blend is suddenly driven to the interior of the hour, and then ensues a more or less being a little off-cold both wave of a rate. the body, and then ensues a more or less permanent congestion or inflammation of some of the internal organs—usually the air tubes in or leading to the lungs. This process being repeated many times, a chronic bronchitis is finally established in expression of interest and good humor. persons otherwise healthy, and life is ever after rendered miserable by this periodical over heating and sudden cooling of

the body.

A still more pernictons effect follows from the so-called modern improvements in heating houses and public buildings.

Instead of the old-fashioned fire places, MARRIED. which consumed at large amount of fuel, and caused a current of fresh, pure air from the outside to rush into the spartment through every possible avanue; we now have stoves which burn, but a small quantity of fuel, and the necessary heat is gained by tightly closing the doors and windows to prevent the access of air, or, what is far whire, heated air from the furnace is convyed to the room and there confined. The result of this effort to economize fuel is painfully manifest in the which consumed at large amount of fuel, commed. The result of this cuot to conomize fuel is painfully manifest in the pallid checks and excited nervous systems of those who are continually subjected to its influence.

Many families all during the long even-

ings of winter in what is considered warm and comfortable spartment, the windows of which are cautiously closed and every aperture for the entrance of fresh air carefully scaled up. The fire in the store, the burning gas and six or eight pairs of hings soon consume nearly all the oxygen in the room, and the air withpresent him a cup of cold water. Only one or two Italian papers are found willing in for the purposes of respiration. When this is continued, not only during the promptly suppressed. ustant state of ill health is suro to result

"We conclude that every law is to be administered by the proper courts until it is declared void by the proper tribunal."

The declared void by the proper tribunal."

The declared void by the proper tribunal."

The declared void by the proper tribunal." the family, and nervous and hysterica This is the language of a Philadelphia paper, commenting on the sentence of a man and colds are frequent, because such perturber for false registration. That may be a very sound conclusion in Philadelphia, to cold drafts of air from an open door of along the passages, when the whole sur-face of the body which has just been pre-

ignorance of sanitary laws is felt immediately, and for this reason, many persons are led to believe that they can indefinitely continue to defy these laws; but, sooder or later, they will suffer the inevitable consequences. consequences. When persons remain for a long time in such highly heated apartments, the heat-producing function oblood is not brought into action. at Wilhelmshohe. He reports that an agent of Bismarck said to a friend in the natural heat of the blood, that the waste materials in the system should be consumed and unless this is the case, the impur-matters are retained, and the blood is constantly loaded with them. The blood is meaning Napodeon. Said the agent: thus continually deferiorating, until at last, it arrives at a condition favorable for the development of tubercle. The missing by alow degrees, as the Tullerles. The very worst prank be (Napoleon) could now play Europe would be to refuse the imperial crown."

Of course nobody can say that Bismarck's

The origin of consumption is not always attributed to the habit of living in insufficiently ventilated apartments, nor does this disease always arise in those who are accustomed to such injudicious exposure; but, nevertheless, as most physicians will testify, whole families of firs have frequently thus been carried off the boys escaping, because they are more

Every means should be adopted to have We should not be surprised if there was an emigration to Southern Africa as general and heedless as that which went into California after gold was found near Sutter's mill. Or course a few will get rich, and many will starve, and others who open air, where the blood will not only receive its due amount of oxygen, but tions in soil and trade and other mineral where it will have an opportunity to burn resources. We presume as many fortunes up all its waste and dead materials, in off-have been made in California out of wheat temperature. In fine, too much stress cannot be fall upon the vital Importance mining.

Mr. Greeley one time very wisely said:

one alth of plenty of fresh air and vigorous exercise, especially during the colder. It is the darkest hour in any man's life seasons of the year.

Is there Anything in Blood ? The men of science are investigating the difference between the blood of different races. It seems that the blood of the Bengalese contains fewer red corpusces than the blood of the European. It has long been held that the presence of blood corpusces is governed by the grade of the

corpusces is governed by the grade of the physical organization and that they mark one of the most important physical distinctions between the sexes.

Dr. Bird of India attributes the soft, encreated nature of its Bengalese to the condition of his blood, and attributes it to the condition of easy subjection in which he has so long been held by the lusty, rich-blooded Englishman. "The inhabitants of swamps and jungles," he says, "are necessarily of lower, organization than those of breezy and well-cultivated uplands." Arguing from this we may believe that moral excellence depends a great deal upon physical development, and that those who desire to preach true religion should look well to the muscles and sinews of their flocks. "And so it and sinews of their flocks. And so it may come to pass that muscular christianity is the highest type of spiritual and muscular excellence.—N. T. Standard.

muscular excellence.—N. T. Mandurd.

An inquisitively inclined gentleman of Chester, Cosm., was, the other day, walking over the Valley Raifrond at Hadden, and olserved a singular looking flask lying under a tree. To satisfy his curiosity, he picked it up and looked at it; held it up and smelled it, finally shook it, and asked a boy who, seemed to have charge, "What is it?" The boy cooly replied, "Nitro-glycerine!" The flask was noticed to be very gently laid down, and a man was also noticed vanishing in the distance.

courteous manner with which, as temporary chairman, he had conducted the pre-liminary business of the meeting. The propriety of this motion was so obvious tinued disregard of such laws will in many cases result in troublesome, it not fatal, disorders of the system. It is a popular notion that it is the "exposure to cold weather alone which produces infiamatory diseases of the throat and lungs. That this is not are a same and the upon his smooth, almost infantile face. It is understood that in attending the convention he has the double interest of aid ing immigration from Europe, and pro
